

(Master) Compliance Verification Engineer (CVE) Avionics / Electric and Equipment m/w/d

We are a successful EASA Part 21J company (EASA 21J.737) located in the beautiful Munich area, wanting a (Master) Compliance Verification Engineer (CVE) Avionic/Electric becoming part of our exciting team at the earliest convenience. No matter the gender – the main thing is that you suit our team.

YOUR KEY TASKS

- ✘ Fulfilling the obligation as an (Master) EASA Certification Verification Engineer in the technical field of Avionics & Electrics
- ✘ Mentoring Junior CVE's and DE's with your expertise and experience
- ✘ Processing and creation of evidence and approval documents as well as the implementation of approval at EASA
- ✘ Reconciliation of technical concepts with the clients starting with the customer quotation process
- ✘ Active participation in the development of new projects & business areas
- ✘ Technical responsibility and management of project tasks (processes, deadlines, capacities)

YOUR CHANCES

- ✘ Making part of a young company and a small team
- ✘ Possibility to directly influence your business environment
- ✘ Enhancing inter-divisional competences
- ✘ Career Path to Design Organisation Manager as HoDA, HoA or Department Lead
- ✘ Attractive, performance-linked wages
- ✘ Home Office with flexible labour time management
- ✘ Cantine in house including financial contribution to the cost

REQUIREMENTS

- ✘ EASA recognised CVE with reference to previous engagement within other EASA Part 21J organisations
- ✘ Experience of airworthiness requirements for aircrafts under EASA CS
- ✘ Likewise, the ability for good teamwork accompanied by corresponding communication skills
- ✘ Decision-making skills, high sense of responsibility and ability to work under pressure
- ✘ Creativity regarding improvements and development of the business environment (productivity, customer service)
- ✘ Distinctive social skills combined with the ability to concentrate on several tasks and assertiveness

WHO WE ARE?

ALAMO Engineering is a young Engineering office and manufacturer in the Aviation Business. We are specialized on individual design solutions and upgrades for the aviation industry.

Next to our engineering and certification services we produce parts, kits and harness.

With a sharp Team we grow consistently and want to expand further.

Are you ready for exciting and new challenges?
